# Jordan

YMCA Revuca provides services to children from socially dependent families, children with behavioral disorders, children that most have not accepted by the majority, since 2011. These are mainly children and young people from the Roma community. It creates better conditions for their development, that family can't provide.

# Safety

The center provides for us the services ranging from creating a safe place to spend their free time, to individual mentoring. Weekly about 70 children from the age of 3 to 25 can take part in 13 activities. We feel safe here.

# Chance

The center operates on the premises of a former family house. There is a second building in the garden but is not functional. It is necessary to perform electrical and plumbing work, heating, build sanitary facilities. Reconstruction of the building is a chance for us to get better conditions for our further activities

# Volunterees

Currently, the activities are focused on the development of volunteers from the Roma community. They organize activities for us. Plus we have full-range support from employees of the Centre and foreign volunteers.
